SUMMARY

Dr. Cui is currently an associate professor in Tongji University, Shanghai, China. He has made significant contributions to the development of stochastic modelling of tropical cyclones hazards, analytical and experimental methods about non-Gaussian turbulence effects on flexible structure, nonlinear aerodynamic effects on long-span structures. His contributions have been recognized through the 2019 American Association for Wind Engineering (AAWE) Best Paper Award, 2019 Shanghai Pujiang Talents award, 2016 Engineering Mechanics Institute Conference Student Paper Competition and Excellent Paper Awards for Young Scholars in two wind engineering conferences. Cui has authored 34 articles published in highly respected journals of structures/wind engineering/fluid-structure interaction, and has carried out 6 funded research projects related to structural wind engineering.

EDUCATION

Northeastern University , Boston, MA, USA, <i>Ph.D. in Civil Engineering</i>	2012.08 - 2017.05
Tongji University , Shanghai, China, <i>M.S. in Civil Engineering</i>	2009.09 - 2012.03
Tongji University , Shanghai, China, <i>B.S. in Civil Engineering</i>	2005.09 - 2009.07
